Governor Bill Richardson,  
Office of the Governor,  
490 Old Santa Fe Trail,  
Room 400,  
Santa Fe,  
NM 87501

21/December/2006

Dear Governor Richardson,

My name is Robert O'Brien and I am an Account Manager for B9 Energy O&M Ltd. We are the leading wind turbine operations and maintenance company in the UK and Ireland and the only wind turbine O&M Company in the world to be accredited to the quality, environmental and Safety standards of ISO 9001, ISO 14001 and OHSAS 18001.

It is our belief that the success of the company is primarily due to the calibre of personnel that are employed at all levels and the level of training that each person has received. We put great emphasis on employee safety and adherence to all environmental obligations; as a result we have achieved excellent employee retention and are in a position to supply an unequalled level of service to our costumers. We are currently negotiating with several companies in North America to supply the expertise that we have acquired in the 14 years that B9 Energy O&M Ltd has been in existence.

While attending the 'wind turbine reliability workshop' in Albuquerque recently, where we made a presentation on maintenance strategies, I met with Dr. Phillip Barry, the President of Mesalands Community College and Jim Morgan, the Director of Technology. We discussed the North American Wind Research and Training Centre that they are trying to establish and the benefits for both organisations. There were several aspects of their proposals that really impressed me. The college has been proactive to an experienced employee deficit that is affecting the industry not just in America but also here in the UK and Ireland.

Their approach to training, with employee safety utmost and primary throughout the course syllabus would be complementary to our company's ethos and we would like to support, in anyway possible, their proposals to establish the training centre.

I realise that you also strongly support this endeavour as you can see the social, economic and environmental benefits that this centre would bring and trust that this support will continue.

Yours Sincerely,

Robert O'Brien,  
Account Manager,  
B9 Energy O&M Ltd.

CC. Jim Morgan, Director of Technology, Mesalands Community College, 911 South 10<sup>th</sup> Street, Tucumcari.
