Federal Not Available

## Career Potential

The Department of Labor provides information about career fields, which can be accessed through the [Bureau of Labor Statistics](#) or the [O\\*NET Resource Center](#). The Department of Labor uses Standard Occupational Classification (SOC) codes to distinguish between career fields. We have provided a list of potential careers that your certification may be used to gain employment in below, with links to the applicable O\*NET Resource page. This list is not exhaustive, and we recommend researching your chosen career field to identify what will be the best steps to take to obtain your career goals.

SOC Code	Career Title
49-3023.00	<a href="#">Automotive Service Technicians and Mechanics</a>
