## About the *Work Readiness Inventory*

New work situations bring with them new concerns. *The Work Readiness Inventory (WRI)* helps you identify the specific challenges you may face in considering new work situations and making career choices. Addressing areas of concern can help you improve your work readiness, which in turn can lead to greater job success and satisfaction.

The *WRI* is a self-report survey. There are no right or wrong answers. When you are ready, open the booklet and begin with Step 1.
