Student Handbook 2016-2017

Mesalands Community College Student Handbook

ACADEMIC INTEGRITY

The integrity of an academic program rests on the principle that the grades awarded to students reflect only their own individual efforts and achievement. Students are required to perform the work specified by the instructor and are responsible for the content of work submitted, such as papers, reports, and examinations.

Academic Standards

Honesty in academic work is a central element of the learning environment. The presentation of another individual's work as one's own, or the act of seeking unfair academic advantage through cheating, are violations. The general descriptions below emphasize those boundaries of academic conduct which are essential to the learning environment.

The following acts of academic dishonesty are among those which may lead to College disciplinary action or possible dismissal:

Cheating

Cheating is defined as submitting assignments, examinations, or other work which is based upon sources or activities forbidden by the instructor. Cheating includes the furnishing of materials to another person for purposes of aiding that person to cheat. When an unfair academic advantage is gained by a person through deception or other means, that action is defined as cheating.

Plagiarism

Plagiarism is defined as submitting assignments, examinations, or other academic work which is not entirely the work of the student. This can include, but is not limited to, such practices as 1) quoting without giving proper credit to a source, 2) expanding someone else's work without giving proper credit, 3) adopting as one's own an actual document (including the copying of computer or other electronic media), and 4) directly using someone else's ideas rather than words without giving proper credit.

Violation of Copyright

Mesalands Community College does not allow for the reproduction or distribution of copyrighted material. Mesalands Community College expects each member of the community to use Mesalands Community College's technology resources responsibly, ethically, and in compliance with the policy, relevant laws, and all contractual obligations to third parties. The holders of copyright possess the exclusive right to authorize reproduction and distribution which all faculty, students, and employees must adhere to.

The unauthorized copying of copyrighted material, whether print or computer media, is illegal and is considered an act of academic dishonesty; moreover, such practice makes the violator subject to legal penalty.

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at no less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504,505.

Willfull copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense.

For more information, please see the website of the U.S. Copyright Office at www.copyright.gov, especially their FAQ's at www.copyright.gov/help/faq.

Penalties for Academic Dishonesty

The following penalties may be applied in instances of academic dishonesty:

A student caught in the act of academic dishonesty of an assignment or exam shall, at the discretion of the instructor, be assigned a grade of "F" for that assignment or exam, or for the entire class.

<i>Wednesday</i>	3

A student found to have committed an act of academic dishonesty may be dismissed from Mesalands Community College. The length of the dismissal will depend upon the nature of the offense and may include a permanent dismissal of the student.

ACADEMIC STANDING

In order to be in good academic standing, a student must maintain a cumulative grade point average of at least 2.0 ("C" average). Students not meeting these standards will be placed on academic probation.

Academic Probation

Any student whose cumulative grade point average (GPA) drops below 2.0 will be placed on academic probation. The student must bring the cumulative GPA up to at least 2.0 during the following semester in order to avoid being placed on academic suspension.

Academic Suspension

Students on their first semester of academic suspension are not allowed to enroll in classes, except for pre-collegiate courses, or to repeat one or more courses with unsatisfactory grades in order to improve their cumulative grade point average.

If a student completes limited enrollment under academic suspension with a cumulative GPA of less than 2.0 for that semester, the student will not be allowed to enroll in any courses the following semester. If the GPA for that semester is 2.0 or higher, but the cumulative GPA is still below 2.0, the student may continue on limited enrollment while under academic suspension. If the cumulative GPA becomes 2.0 or higher, the student will be released from probation and suspension.

Students who are placed on complete academic suspension for a second time are not automatically re-admitted after one semester. Instead, after one semester of suspension, the student must submit a written petition to the Academic Standards and Issues Committee requesting re-admission. The committee may grant re-admission at this time or may choose to require a suspension of a full year or longer or may deny any future admission altogether.

Students re-admitted after suspension may also be required to follow additional stipulations such as periodic meetings with an advisor, tutoring, attendance requirements, or GPA requirements. Students re-admitted after suspension who do not follow these stipulations will be subject to immediate dismissal from the College.

Admission to Full-Time Occupational Technical Programs

Students interested in applying for admission to the Wind Energy Technology Degree Program must complete the Success Assessment/Placement Test for admission. The math score must establish eligibility to enroll in MATH 101. The English score must establish eligibility to enroll in ENG 102, or in the freshman year the student must take and pass ENG 100. If the student's scores do not meet program requirements, they must complete all required pre-collegiate courses as prescribed by their test scores with a grade of "C" or higher. Students in this program must also complete the required physical exam. All Wind Energy Technology students must enroll in courses according to the published Plan of Study. For additional information, contact the Wind Energy Department at (575) 461-4413, ext. 156, or visit www.mesalands.edu/wind.

NOTE:

Certificate students receiving financial aid will also be required to submit official transcripts from all prior colleges, universities, and other post-secondary institutions attended.

Please note that a transcript is only considered **official** when it is mailed from the institution to Mesalands Community College. Copies of transcripts and/or transcripts mailed to the student will not be accepted by Mesalands Community College as official transcripts.

Program Admission

Mesalands Community College adheres to an open admissions policy, admitting any student to the College who is a high school graduate, high school equivalency recipient, or who has otherwise demonstrated the ability to benefit as demonstrated by the Success Assessment/Placement Test.

However, a student may be required to demonstrate certain proficiencies in math, English, and reading before admission to specific programs or classes is permitted. Students not demonstrating minimum proficiencies will be required to successfully complete prescribed pre-collegiate programming before gaining admission to programs or collegiate level classes.

Also, Federal Financial Aid may not be awarded to a student enrolled exclusively in pre-collegiate courses, or for enrollment in certain pre-collegiate courses with curriculum content below minimum levels as per federal Financial Aid regulations.

Complete an application for admission from the Office of Enrollment Management

Non-degree Status

To facilitate those individuals age 18 or older who are interested in taking individual courses for the purposes of professional development or personal enrichment rather than for a certificate or degree, the College will allow admissions on a non-degree-seeking basis.

Students admitted to Mesalands Community College on a non-degree-seeking status do not have to provide proof of high school graduation. However, such students are not eligible for Federal Financial Aid programs and must take the Success Assessment/Placement Test if enrolling in core math, English, or reading courses. Although credit earned under non-degree status may later be applied to a Plan of Study, the student is not “locked in” to the Plan of Study until he/she meets requirements for regular degree-seeking admission and files a Plan of Study with the Office of Enrollment Management (see Educational Plan of Study). *Students who anticipate pursuing a certificate or degree are strongly encouraged to apply for regular admissions status initially, rather than non-degree status.*

Re-admission

Students desiring to return after having left Mesalands Community College must contact the Office of Enrollment Management and update their admission form.

Underage Admission

Individuals under the age of 15 desiring admission to the College should inquire at the Office of Enrollment Management regarding under-age admission.

ADVISING

Academic Advising

Mesalands Community College realizes the importance of decisions students make which affect their educational pursuits. An advisor is available to assist students in making decisions involving personal matters related to their education, assessments, skill levels, educational planning, transfer options, and career planning.

The advisor can assist students with resolving problems and finding alternate solutions. The advisor can provide referrals for study skills, tutoring, stress, and adjusting to college life. These services are provided to full-time, part-time, and potential students.

Faculty Advising

Although some entering students may be relatively sure about their career goals, a number of others need assistance in developing educational plans. Therefore, one of the first steps Mesalands Community College implements after admission is designating a faculty advisor for each student through the Office of Enrollment Management.

Faculty advisors assist both new and returning students in choosing classes to fulfill degree plans. In addition, Student Affairs staff are available to provide assistance and support if students need career information, testing, etc. All students are ultimately responsible for decisions regarding their own course selections and degree plans.

ASSESSMENT OF STUDENT LEARNING

Effective assessment of student learning is a matter of commitment, not a matter of compliance. To that end, Mesalands Community College is dedicated to establishing a culture of assessment embedded in every aspect of the educational process. Assessing, understanding, and improving student learning is an ongoing, institution-wide process that involves all stakeholders; both internal and external.

The first stated “goal” of Mesalands Community College is to provide “(a)n environment where learning is appreciated, encouraged, and assessed.” The Student Learning Assessment Committee (SLAC) is responsible for facilitating the assessment of both the General Education Core Competencies and Program Objectives.

The College has identified six General Education Competencies that all Mesalands Community College graduates will demonstrate upon completion of a degree. These competencies represent the most deeply held values of the College and are as follows: Writing, Oral Communication, Information Technology, Mathematical Reasoning, Scientific Reasoning, and Critical Thinking.

General Education Competencies are assessed wherever and however courses are taught utilizing rubrics. Simply put, a rubric is a scoring tool that identifies specific expectations for a task or a assessment. Rubrics divide tasks into their component parts and provide a detailed description of what constitutes an acceptable or unacceptable level of performance for each of those parts.

In support of the College’s attempt to assess General Education Competency attainment, students in their last semester prior to graduation with a degree are required to successfully complete ENG 299: Capstone Portfolio Course. This course assists students in documenting general education competency achievements in com-

munication (writing, oral presentation, and information technology), critical thinking, and scientific and mathematical reasoning during their program of study through the use of artifacts. A portfolio reflecting signature works will be submitted to a faculty committee for review and evaluation. This course must be completed during the student's last semester prior to graduation.

Students who plan on graduating with an Associate's degree or who will have completed 60 credit hours by the end of a given semester are also required to take the Collegiate Assessment of Academic Proficiency (CAAP) at the scheduled time and day.

Degree and certificate programs of study have identified program-specific objectives. These program objectives reflect the competencies that students will possess and demonstrate upon graduation. The program objectives reflect the knowledge, skills, and professional dispositions valued by workplace employers and other stakeholders.

Degree programs measure both General Education Competency and program-specific objective attainment while certificate programs measure program-specific objective attainment only.

ATTENDANCE POLICY

The College provides a unique bookstore for student, faculty, staff, and community convenience with a pleasant and relaxing atmosphere. The goal of the College Bookstore is to provide necessary and supplementary educational materials needed to enhance learning. COMPUTER SERVICES

Mesalands Community College maintains networked computer locations for student use to compliment practical applications of techniques taught in the classroom. These systems may be found in two computer classrooms, the science laboratory, the Wind Energy Technology classroom, the Library, and the Educational Services Center. These labs also provide students with the ability to stay in practice with the application packages even after they have completed the course.

These locations provide state-of-the-art computers with high-speed Internet access. In addition, all computers are equipped with current word processing, graphics, spreadsheets, database, and office systems software utilized by business and industry. Each computer can print to a network laser printer and may be accessed by any computer on campus.

Computer Use

Students using computers at Mesalands Community College are expected to follow the prescribed Computer Use Guidelines. Failure to follow guidelines (or any other unethical use of computing equipment) may result in loss of one's computer account and access to all computing resources.

The use of the College's technology resources are a privilege to access and use. If a member of the College community fails to comply with this Policy or relevant laws and contractual obligations, that member's privilege to access and use the College's technology resources may be revoked.

Some courses (computer and otherwise) require Internet access for research and other course assignments. All students may have Internet access through the computer labs.

Mesalands Community College Institutional Technology further enforces this policy by utilizing next generation technologies and firewalls as means of enhanced security through application, network and system visibility and access control. In order to access campus technology sources, students must use their My.Mesalands username and password.

DRUG-FREE CAMPUS

It is Mesalands Community College’s policy to provide a safe environment for its employees, students and members of the public. Accordingly, the College adheres to the Drug-Free Workplace Act of 1988, the Omnibus Transportation Act of 1991, and any state and local laws regarding the use, sale or possession of alcohol and controlled substances on College property.

Legal Sanctions

Students are required to comply with institutional, state and federal laws regarding the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance, illegal drugs and/or drug associated paraphernalia, except as expressly permitted by law. Student organizations or individual students who violate College policies or state or federal laws may be subject to civil, criminal and College proceedings and sanctions. All violations will be presented to the appropriate authorities for prosecution.

Controlled substances include, but are not limited to, marijuana, cocaine (including “crack”), amphetamines, heroin, PCP, hallucinogens, and certain prescription drugs. Illegal uses of alcohol include, but are not limited to, serving, buying, or drinking alcohol by a minor; assisting a minor or an intoxicated person to get alcohol; selling alcohol without a license; and driving while under the influence. This is not intended to supersede or negate any existing policies on substance abuse, student discipline, or any additional requirements imposed on Mesalands Community College or its students, faculty, or staff by federal or state law.

Depending on the facts relating to the unlawful possession, use or distribution of illicit drugs or alcohol, the student may be subject to the following sanctions:

- Possible notification to the parents of students under the age of 21 years
- Placed on probation for specified period of time
- Suspended for a specified period of time
- Expelled from the College

- Subject to any combination of the above listed sanctions

This is subject to change in order to comply with new local, state, or federal laws, or changes in the College's procedures pertaining to the possession and consumption of alcoholic beverages. New Mexico State law supersedes any policy developed and/or in place by the College with regard to alcohol or illicit drug use or possession.

In the State of New Mexico, you must be 21 to purchase or drink beer, wine, or liquor. The punishment for buying, drinking or possessing an alcoholic beverage as a minor is a misdemeanor offense punishable by fines, which increase with each prior conviction. The court can also suspend your driver's license, require community service work. In addition, the court may require that you attend an alcohol awareness course. Giving alcohol to a minor, and making or applying for a fake ID, is a felony.

Punishment for a drug possession arrest depends on the type and the amount of drugs, as well as other factors. Possessing some drugs, like marijuana, may either be a misdemeanor or felony, depending on the amount. Possessing other drugs such as cocaine or methamphetamine is a felony. Any conviction for drug possession or drug related offenses may affect a student's eligibility for federal student loans.

Health Risks Associated with Use of Illicit Drugs and the Abuse of Alcohol

Excessive alcohol consumption and abuse of illicit drugs causes a number of changes in behavior and physiology. Even low doses significantly impair judgment, coordination, and abstract mental functioning. Continued abuse may lead to dependency which often causes permanent damage to vital organs and deterioration of a healthy lifestyle. Alcohol and drugs are also a major factor in homicides, assaults, rapes, suicide, family and date violence, and motor vehicle accidents. Unintended pregnancies and sexually transmitted diseases are often associated with alcohol or other drug abuse, as well as relationship, academic, or work problems.

Resources

The College is prepared to help students find appropriate assistance in dealing with alcohol and drug-related problems. It is each student's responsibility to seek assistance before the problem affects their judgment, performance or behavior.

Educational Plans of Study list specific courses which are required to earn a degree or certificate. An Educational Plan of Study may reflect changes that have occurred within that discipline. Students are encouraged to discuss degree options with a Student Affairs Advisor or their faculty advisor. A student's Plan of Study remains valid only as long as the student remains continuously enrolled at Mesalands Community College after signing the Plan of Study (which will include at least one course per fall and spring semesters). In addition, the College makes no assurances that courses needed for completion of a given Plan of Study will be offered beyond three years from the date of signing for Associate degree plans, or one year beyond the date of signing for certificate plans. A student must have a signed degree plan on file in order to qualify for financial aid.

FINANCIAL AID

Students seeking financial aid must apply each year in order to qualify for available funding. Information and forms can be obtained from the Financial Aid Office. Although applications are accepted on a revolving basis, the recommended deadlines are March 31 for the fall semester and October 31 for the spring semester. For further information, contact the Financial Aid Office, which is open from 8 a.m. to 5 p.m. weekdays.

Most of these programs require the completion of the Free Application for Federal Student Aid (FAFSA) which is available on the internet at www.fafsa.ed.gov/. You may qualify to receive funding from more than one of these sources:

- Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- College Work Study (state and federal)
- New Mexico State Student Incentive Grant (SSIG)
- New Mexico 3% Scholarship
- Veteran's Benefits (students desiring to certify for Veteran's Benefits must submit a written request to the Student Affairs Office prior to the beginning of each semester)
- Legislative Endowment Scholarship
- New Mexico Legislative Lottery Scholarship
- Numerous College and College Foundation scholarships

Satisfactory Academic Progress

Federal regulations require that students meet certain academic standards to be eligible for federal financial aid. To ensure financial aid recipients are making Satisfactory Academic Progress, academic transcripts are reviewed at the end of each semester to determine eligibility for the next semester. All terms of attendance are reviewed, including periods in which the student did not receive financial aid.

Summer terms are treated the same as fall and spring semesters for the purpose of Satisfactory Academic Progress.

<div>2016</div> December 4-10		Weekly Planner

<i>Monday</i>	5	Finals
<i>Tuesday</i>	6	Finals
<i>Wednesday</i>	7	Finals
<i>Thursday</i>	8	Finals
<i>Friday</i>	9	
<i>Saturday</i>	10	

Students will be placed on Financial Aid Warning or Financial Aid Probation if they do not meet the following standards:

Qualitative Progress — Students must maintain a cumulative grade point average (GPA) of at least a 2.0. Withdrawals and audited classes are not used for determining GPA.

Quantitative Progress — Federal regulations require a student to complete the course work for their program within 150% of the published length of the educational program. This includes credit hours for transfer courses, withdrawals or repeat courses. For example, if a degree requires 66 credit hours, the student can attempt 66 credits multiplied by 150% or 99 credit hours before they are ineligible for financial aid.

Incremental Progress — Students must complete 67% of the semester hours (registered credit hours) attempted at Mesalands Community College (MCC). Any course with a grade of Withdrawal (W), Incomplete (I), Audit (AU), or Fail (F), is not considered completed course work.

Semester	Earned/ Attempted Credit Hours	Total Earned Hours	Total Attempted Hours	Percent Completed (Cumulative)
1	10/15	10	15	66.7
2	15/18	25	33	75.8
3	6/9	31	42	73.8
4	18/18	49	60	81.7
5	18/18	67	78	85.9

If a student withdraws from a course(s) or takes an incomplete in a course, the credit hours will still count as hours attempted, but not completed. This may affect a student’s quantitative and incremental progress. When an incomplete grade changes, the student may request that their satisfactory academic progress be re-evaluated at that time. If there is not a request, then it will automatically be re-evaluated after the student completes the next semester.

Required pre-collegiate courses for credit do affect a student’s enrollment status, GPA, and completion rates. Non-credit courses are not reflected on a student’s transcript and, therefore, do not calculate into the enrollment status, GPA or completion rate. Students are allowed up to a maximum of 30 credit hours for pre-collegiate courses.

Students are allowed to repeat courses while receiving financial aid to meet prerequisite or degree requirements. The new grade will replace the old grade when calculating the cumulative GPA regardless of any improvement in the grade. The credit hours for the original course and repeated course will be counted in the earned and attempted hours for completion rate calculation.

Students that transfer into a degree program at the College will have the transfer hours calculated with the attempted and earned hours for the purposes of Satisfactory Academic Progress.

Students that change their degree program or pursue a second degree at Mesalands will have to request a transcript evaluation to determine how many hours will be needed to earn the new degree before they will be considered for financial aid. Once the number of remaining hours needed is determined, the student will be allowed 150% of that total to obtain the degree while being eligible for federal financial aid.

If a student fails to meet the requirements of satisfactory academic progress, he or she will be placed on Financial Aid Warning for one semester and will still be able to receive financial aid. The second semester that a student fails to meet the requirements will result in Financial Aid Probation. A student may be released from Financial Aid Warning or Probation by reestablishing satisfactory academic progress.

Once a student has been placed on Financial Aid Probation for adverse academic progress, the student may submit a Petition for Reinstatement of Financial Aid if there were unusual or mitigating circumstances. Examples of mitigating circumstances include, but are not limited to, prolonged and/or severe illness under a doctor's care for the student or a dependent, and accidents requiring hospitalization, or death of an immediate family member. Documentation is required to support the circumstance. The petition will be presented to the Student Appeals Committee for a decision.

If an appeal is denied or a student does not have unusual or mitigating circumstances, the student remains ineligible to receive financial aid. He/she may reestablish eligibility for federal and state financial aid programs by successfully meeting the Satisfactory Academic Progress requirements based on his/her cumulative hours and GPA. The student will not be able to receive financial aid beyond the 150% of the degree program after they have reestablished other requirements of satisfactory academic progress.

Return to Title IV Funds Policy

If a student receiving federal Title IV funds completely terminates enrollment (begins official withdrawal process) or ceases to attend classes (unofficially withdraws) before the end of a payment period, then a recalculation of Federal Financial Aid is required by federal regulations to determine the earned and unearned portions of Title IV aid (Pell Grant, and/or Federal Supplemental Educational Opportunity Grant [FSEOG]).

A student can officially withdraw from Mesalands Community College by completing a "Withdrawal Form" from the Student Affairs Office. The student must complete and sign the form. The form must then be signed by an advisor, the Financial Aid Office and the Business Office. The form is then turned into Student Affairs for processing. This process must be completed by the withdrawal deadline on the Institutional Calendar published in the College Catalog and/or current course schedule. A copy of the form is sent to Financial Aid, the instructor, and the Cashier's window for notification, and the withdrawal date will be the processed date by Student Affairs.

Up through the 60% point in the payment period, a pro-rata schedule is used to determine the amount of the Title IV funds the student has earned at the time of withdrawal. The amount of the Title IV aid earned or unearned is determined by using the Return of Title IV Funds software provided by the US Department of Education. All calculations are based on credit hour term programs.

After the 60% point in the payment period, a student has earned 100% of the Title IV funds he or she was scheduled to receive during the period. For a student who withdraws after the 60% point in time, there are no unearned funds.

For students who unofficially withdraw, the 50% point of the payment period will be used for the calculation. If there is proof that a student was academically involved in a class after this point, then the provided date will be used in the calculation. Letters are mailed to students notifying them that a recalculation has been performed. Any amounts due to the school and/or the Department of Education are included in this letter. A copy of the letter, the recalculation worksheets and any withdrawal information is placed in the student's financial aid file.

The unearned aid portion due from the school is returned within 45 days of the determination of withdrawal date. The unearned aid will first be returned to the Pell Grant fund, followed by the ACG and

then FSEOG. The earned portion of the awards will be posted to the student's account, thus reflecting the new amount owed on the student account. The student will be billed for the amount owed to the Title IV programs as well as any amount due to the College resulting from the return of Title IV funds used to cover College charges.

If a student has a credit balance after the calculation, the student will be notified to pick up his/her check from the Cashier's window.

Audit

Auditing a course gives a student an opportunity to attend a class as a non-graded, non-credit participant. Auditing is usually done by students for reviewing a subject area, as a refresher, or for general interest. Students must register for audited courses in the same manner as for regular courses. Standard tuition and fees apply to all audited courses and are due and payable at the time of enrollment.

Audited courses are recorded on the College transcript as “AU” and cannot be changed to a credit course or grade at a later date. Students who desire to do so may repeat the course for credit at a later date.

Incomplete

An “I” is issued when unforeseeable circumstances beyond the student’s control prevent the student from completing course requirements by the end of the semester. Incomplete grades will not be authorized when the student has failed to complete course requirements or has failing grades due to personal negligence. To apply for a grade of “I,” the student must complete an Incomplete Grade Form with their instructor. A student may only apply for an incomplete grade after the deadline for withdrawing and before the last week of class. If an emergency arises prior to the withdrawal deadline that prevents a student from completing a course, he/she should withdraw from the class. An incomplete will not be awarded.

A student who applies for an Incomplete grade must attend class up until the time of applying for the Incomplete, or up until the time a legitimate, documented emergency occurs. Those in distance education courses must make progress in their class and maintain contact with their instructor.

A student must have maintained a passing grade in the course up until the time of applying for an incomplete grade. A grade of incomplete cannot be replaced by repeating the course. If a student takes an incomplete and repeats a course the following semester, he/she will still be expected to complete the requirements of the incomplete course upon completion, an appropriate grade will be issued. A student who receives an Incomplete or grade of “I” will be given five weeks from the date the Incomplete was issued to complete their course work.

Pass/Fail Grading

At the direction of the Vice President of Academic Affairs, courses which are not prescribed in a specified Plan of Study may be offered on a Pass/Fail grading basis. Also, students may opt to take courses

on an individual Pass/Fail basis. However, a maximum of seven credits of Pass/Fail may be used toward their Plan of Study at Mesa-lands Community College. Students must maintain a 75% average to receive a grade of “P.” Any lower average will be recorded as an “F.”

Change of Grading Option

Students may elect to change from conventional grading to “Audit” or “Pass/Fail” at any time during the drop/add period by notifying the Office of Enrollment Management. A drop/add fee will be assessed.

Withdrawal

Students are allowed to withdraw from a course without academic penalty up to the established withdrawal date, which is established in the institutional calendar and published in the class schedule, the Student Handbook, and the College Catalog.

Grade Appeal

Any student who feels his or her final grade is incorrect may appeal for a grade change through the following steps:

Discuss the grade with the instructor involved
and

If you are unable to reach an agreement, make an appointment with the Vice President of Academic Affairs and present all the evidence relating to the final grade and requested change. The Vice President of Academic Affairs’ decision is final.

GRADUATION

Grade Point Average

To be eligible for graduation, a student must complete all courses of study with a Cumulative Grade Point Average (CGPA) of 2.0 or better.

On-campus Requirement

A student must complete 15 credit hours at Mesalands Community College prior to receiving a certificate or associate's degree.

ENG 299: Capstone Portfolio Course

The ENG 299: Capstone Portfolio Course is taken during the student's last semester before graduation. Students should save samples their best work to include in their capstone portfolio.

Indebtedness to the College

No degree or certificate will be awarded until all student indebtedness to Mesalands Community College has been satisfied. Library and tool inventories must be cleared, and all other obligations to the College satisfied.

Minimum Requirements for Subsequent Degrees

Students may qualify for more than one Associate of Applied Science (AAS) degree by completing the requirements for the subsequent degree(s) and by earning at least an additional 15 collegiate level credits after receiving the previous degree.

This applies to different degrees, not options within a degree. For example, a student may qualify for degrees in both Business Administration and Farrier Science, but cannot earn degrees for both Elementary Education and Secondary Education, since these are simply options under the Education degree. Students may qualify for more than one certificate within a department by completing the requirements with at least an additional nine (9) credits beyond the requirements for the first certificate.

Students may not qualify for more than one Associate of Arts (AA) degree. The AA degree is a single degree with various options and concentrations designed for students anticipating transfer to a four-year college to complete a Bachelor's degree.

PARKING AVAILABILITY AND PARKING RESTRICTIONS

Policy

The College personnel and Tucumcari Police Department have jurisdiction to enforce the regulations and the right to remove or impound any vehicle operated or parked in violation of the regulations. In such cases, the vehicle’s owner will be required to pay towing and storage charges. The Vice President of Student Affairs has the discretionary powers to enforce a policy or traffic control on the campus when it is not specifically covered by these regulations. Students, faculty, and staff are expected to be familiar with and abide by these regulations. The fact that a violation notice is not issued to a vehicle that is illegally parked does not mean or imply that the regulation or law is no longer in effect.

Students, faculty and staff are expected to be familiar with and abide by the New Mexico Criminal and Motor Vehicle Laws in addition to the College Regulations, which are in effect on Mesalands Community College property 24 hours a day. Strict adherence to all regulations

1974 (FERPA), its amendments, and the final rule of the U.S. Department of Education.

This act gives students certain rights regarding their records:

1. The right to inspect information contained in the student's educational records.
2. The right to request correction of records upon proof of error.
3. The right to prevent disclosure of records without consent, with certain exceptions, including directory information, as delineated in the College's complete policy.
4. The right to secure a copy of the College's complete policy (see Office of Enrollment Management).
5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the provisions of the Act.
6. The right to have directory information withheld (see Release of Student Information).

Release of Student Information

Students who are currently enrolled and wish to deny release of directory information must complete an "Access to Student Records" form in the Office of Enrollment Management. Restriction of directory information will only be honored while the student is currently enrolled at Mesalands Community College. Should a student not maintain continuous enrollment, he or she must complete another form upon readmission.

Complete information on the College's FERPA policy is available in the Office of Enrollment Management.

STUDENTS WITH SPECIAL NEEDS

Mesalands Community College is committed to helping qualified students with special needs reach their goals. Students requesting special accommodations under the Americans with Disabilities Act must contact their instructor or Student Affairs staff who will advise them of the required process.

Documentation of disability and need for special accommodations must be provided by the student in order for a decision to be made concerning eligibility for the requested services. Approved accommodations will be implemented in a timely manner, and appropriate to the type of accommodation being requested. For special accommodations information, contact the Vice President of Student Affairs.

TOBACCO-FREE ENVIRONMENT

All of Mesalands Community College's indoor areas are smoke free and tobacco free areas. In support of the New Mexico Clean Indoor Air Act [24-16-1 NMSA 1978], this prohibition against all use of tobacco of any kind is extended to include all campus building facilities (including restrooms, classrooms, work areas, lounges, commons areas, conference rooms, laboratories, etc.) and all vehicles owned and operated by the College. Additionally, smoking is prohibited by the Deedhanson Clean Indoor Air Act near entrances, windows, and ventilation systems of all work places and public places.

TOURS

Tours of the Mesalands Community College campus are provided by the Student Affairs Office to any individual or group that would like to become acquainted with the campus. Tours may be arranged by calling Student Affairs at 461-4413, extension 153.

TRANSCRIPTS

Students may authorize Mesalands Community College to provide confidential copies of transcripts to employers and educational institutions. The student must fill out a "Request for Transcript of Record" form, located in the Office of Enrollment Management or on the College website. Transcripts are provided to students at a cost of \$4.00 and will be mailed within 48 business hours of the date the request is received.

TRANSFER CREDIT FROM OTHER INSTITUTIONS

Only credit which is applicable toward a student's signed Educational Plan of Study shall be considered for transfer credit. Students desiring credit for past college work must have an official transcript from each previous college mailed directly to Mesalands Community College and must complete a Request for Transcript Evaluation form. Only courses with a grade of "C" or better or "P" or "S" will be considered

for transfer. The only exception is for courses in the New Mexico General Education Common Core, in which case a grade of "D" may be accepted.

Any course accepted in transfer must be equivalent to the Mesalands Community College course for which it is substituted on the Plan of Study. If the course being transferred to Mesalands is for less credit than the Mesalands course, the student must have additional credit relevant to his or her Plan of Study to make up the difference. Courses accepted in transfer will not be included in the CGPA.

Transfer credit for military training will be allowed in accordance with the above, provided the student provides official documentation of course completion, including the course's American Council on Education ID number. The Guide to the Evaluation of Educational Experiences in the Armed Services shall be used in evaluating the course's equivalency to Mesalands courses.

Mesalands will accept an unlimited number of transfer hours subject to the above guidelines; however, a student must complete at least six credit hours of a certificate and 15 credit hours of a degree in residence, to be eligible to graduate. This requirement may be waived by the Vice President of Academic Affairs on a case-by-case basis.

Other restrictions exist regarding acceptance of transfer credit. See the Office of Enrollment Management for complete policy.

TRANSFER AMONG NEW MEXICO HIGHER EDUCATION INSTITUTIONS

To facilitate transfer of students and course credits among New Mexico's colleges and universities, the state's public institutions of higher education are required to accept in transfer courses taken within approved modules of lower-division course work and apply them toward degree requirements. Several transfer guides have been developed through collaboration of New Mexico's public post-secondary institutions, consistent with requirements of state law (SB 161). Students enrolling for first-year or second-year study at a New Mexico institution and wishing to prepare for possible transfer into a degree program at another institution are advised to take these courses during their freshman and sophomore years.

Student Responsibility

New Mexico's colleges and universities have collaborated to produce guides to assist students who plan to transfer before completing a program of study. Course modules are designed to help students select courses carefully so that they may transfer with little or no loss of credit. However, planning for effective transfer with maximum efficiency is ultimately the student's responsibility. Responsible transfer

planning includes early and regular consultation with the intended degree-granting institution to assure that all pre-transfer coursework will meet the requirements of the desired degree.

TRANSFERABLE LOWER-DIVISION GENERAL EDUCATION COMMON CORE

Students enrolling for first-year study who have not yet selected either an academic focus or the institution where they wish to graduate are advised to take courses during their freshman year outlined in the New Mexico General Education Common Core. For students enrolled at any public institution in New Mexico, the following courses are guaranteed to transfer to any other New Mexico public college or university, and apply toward associate and baccalaureate degree program requirements. Students should consult advisors at their current institutions regarding which specific courses fit these categories.

Students preparing for careers in engineering, health sciences, or other profession-related fields are advised that some of this course work may not transfer toward general education requirement, will apply toward elective requirements in most cases.

NEW MEXICO COMMON COURSE NUMBERING SYSTEM

A common course numbering system has been devised by New Mexico colleges and universities. The purpose of the system is to assist New Mexico students who are transferring between institutions within the state. The system provides a neutral state-wide course identifier for those courses that are similar in nature and considered to be equal in transfer. (If a Mesalands Community College course has a New Mexico Common Course Number [NMCCN], that course number is listed below in parentheses and, if applicable, is also listed parenthetically following the course description in the Course Description section of the College catalog.) Refer to the Mesalands catalog for courses included in the New Mexico General Education Common Core.
