

PLANS OF STUDY: ASSOCIATE OF APPLIED SCIENCE DEGREES AND CERTIFICATES

AGRI-BUSINESS

Agri-Business is a major part of the United States economy. The Agri-Business field involves those businesses and professions involved in producing, processing, marketing, and distributing goods and/or services related to agriculture. Businesses from farming and ranching to banking and marketing are part of Agri-Business.

The Agri-Business Associate of Applied Science degree combines business courses with animal science and general education courses. The Agri-Business degree at Mesalands is designed to prepare students for transfer to a four-year college or university. Students may also gain entry-level employment upon completion of the degree.

FIRST YEAR

FALL	CREDITS
ACCT 2110 Principles of Accounting	3

CREDITS	14

TOTAL CREDITS 60

NURSE'S AIDE CERTIFICATE

This program prepares students to enter the nursing profession as an entry-level nursing assistant. Upon successful completion of this certificate, the student will meet all federal certification standards for a nursing assistant and be prepared to sit for the New Mexico Nurse's Aide Registry exam.

Prospective students who have been convicted of a felony are advised to contact the appropriate state board of nursing prior to admission to determine their eligibility for licensure. Fingerprinting for background checks, drug testing, and proof of recommended vaccinations are required for the Nurse Aide class. All students must meet the state requirements for each assigned clinical site to qualify for placement.

FIRST YEAR

FALL

		CREDITS
AHS 218	BLS for Healthcare Providers	1
AHS 125	Nurse Aide	5
Total Credits		6

*Note:

The following course is a pre-requisite and/or corequisite:

HLSC 1030 Medical Technology (3 credits)

PHLEBOTOMY CERTIFICATE

This program is designed to provide students with the necessary skills for gainful employment as a phlebotomist. Working under the supervision of a clinical laboratory supervisor, the phlebotomist is responsible for the proper collection, processing and testing of blood specimens and various other medical samples in accordance with OSHA safety regulations and standards. Upon successful completion of this program, the student will be eligible for the application to the national licensing examination through the American Society for Clinical Pathology (ASCP).

FIRST YEAR

FALL

		CREDITS
AHS 218	BLS for Healthcare Providers	1
PHLB 113	Introduction to Phlebotomy*	3
PHLB 115L	Clinical Phlebotomy I	3
PHLB 116L	Clinical Phlebotomy II	3
PHLB 117L	Special Practices in Phlebotomy	3
TOTAL CREDITS		13

*Note:

The following courses are pre-requisites: and/or corequisites:

HLSC 1110 Introduction to Health Science (3 credits)

HLSC 1030 Medical Technology (3 credits)

ANIMAL SCIENCE

A variety of careers are available in the field of Animal Science. From feed sales and nutritionist to buyer, handler and manager, the field of Animal Science offers a variety of career options.

The Animal Science program at Mesalands Community College focuses on the management, biology and health of production livestock animals. The combination of courses in this degree provides a comprehensive educational experience that covers the anatomy and physiology, nutrition, food production and management of all major livestock species that benefit mankind. Students will gain classroom instruction as well as hands-on experience from local ranchers, farmers and other livestock producers.

An associate degree in Animal Science at Mesalands Community College can be transferred to a four-year institution, or it can also be used to gain internships and careers in many fields. Students may also choose to take the knowledge and experience gained back to family ranching or farming operation.

FIRST YEAR

FALL	CREDITS
ANSC 1120 Introduction to Animal Science	3
ENGL 1110 Composition I	3

ARTISTIC SILVERSMITHING CERTIFICATE

The Artistic Silversmithing Certificate program is designed to enable students in the acquisition of skills necessary for self-employment or employment with a major manufacturer in the field of traditional western culture arts. Western culture arts include custom designing, fabricating, and the engraving of bits, spurs, various buckles, bracelets and pendants worn and used in traditional western culture.

BUILDING TRADES

The Building Trades program provides a broad education towards entry-level employment opportunities in the construction field. First year courses concentrate on basic techniques including carpentry, construction safety, blueprint reading, and job site etiquette. Second year courses build on this foundation, including interior and exterior finishing, Computer Aided Design (CAD) and project management.

The National Center for Construction Education and Research (NCCER) issues nationally recognized certificates of achievement to all students completing the competency-based training and performance testing.

FIRST YEAR

BUSINESS

The Business Department at Mesalands Community College offers students a wide range of programs toward an Associate degree. Associate of Applied Science degrees are awarded to students who complete the degree plan requirements in the Business Administration and Business Office Technology programs.

BUSINESS ADMINISTRATION

GENERAL OPTION

The Business Administration program provides the means for students to acquire skills in accounting, business communications, business law, computers, economics, and management. These skills will enable students to enter the business world. This program is designed to provide the first two years of business courses for those students who plan to pursue a four-year degree. Graduates of the Business Administration program are exposed to a variety of disciplines and are given the opportunity to improve and enhance their interpersonal, critical thinking, and problem-solving skills.

FARRIER SCIENCE

The Farrier Science program at Mesalands Community College offers an Associate of Applied Science degree as well as an Occupational Certificate.

Farrier Science is primarily a self-employed field; therefore, farriers must be knowledgeable and skilled in all facets of the business. The Farrier Science degree program offers hands-on practical experience in horsemanship, trimming and shoeing, and forging and welding. Instruction in anatomy and physiology, business management, and other aspects of horseshoeing are provided in the classroom.

The degree program also offers an in-depth study of therapeutic and pathological shoeing, including the physiology, forging and application of shoes.

FIRST YEAR

TOTAL CREDITS 61

FARRIER SCIENCE CERTIFICATE

The Farrier Science Certificate is designed to give students hands-on experience in horseshoeing and blacksmithing as well as familiarize students with the principles and theories of trimming and balancing horses according to their conformation and use. The certificate program is comparable to those offered in private horseshoeing schools. Students spend class time trimming and shoeing horses, forging tools and specialty (corrective) horseshoes and studying horse-shoeing. Students also receive instruction in anatomy and physiology, entrepreneurial business and welding. Students who wish to gain advanced knowledge in Farrier Science should consider the College's degree program.

GENERAL STUDIES

OCCUPATIONAL OPTION

The experiential learning program allows students to apply work experience and training toward an Associate of Applied Science degree. It is a way for students to earn course credits at Mesalands for completed on-the-job training and courses where certificates are given. Obvious programs that may qualify for experiential learning credits are in certificate programs, Diesel Technology, Farrier Science and other similar areas of study. Experiential learning allows the student to improve upon their certificate and obtain an Applied Science degree.

Students who have had applicable training, previous vocational, or military experience may petition for college credit by submitting an Experiential Learning Portfolio. Up to 18 college credits may be awarded toward the Associate of Applied Science Degree in General Studies. Credit is awarded only if appropriate experiential learning has occurred and is documented in the Experiential Learning Portfolio Handbook.

PUBLIC ADMINISTRATION

LAW ENFORCEMENT OPTION

(New Mexico Corrections Department Training Academy)

The Law Enforcement Option offers an Associate of Applied Science degree. The field of study offers the student an inside look at the functions of law enforcement, how evidence is gathered and analyzed, and how suspects are identified, apprehended, and prosecuted. Careers in the various professions associated with Law Enforcement offer unique and exciting challenges.

Police Academy Transfer Credits: Up to 30 credits

Upon documentation of completion of the New Mexico Police Academy, students pursuing the AAS Degree in Public Administration (Law Enforcement) may receive 30 credits toward the completion of this degree. This transfer credit will only be awarded and applied to the student's transcript when all other course requirements for the degree have been met.

TECHNICAL AND PROFESSIONAL WRITING

The Technical and Professional Writing Occupational Certificate program provides students with a selection of courses designed to enhance professional opportunities in a variety of communication fields. The program is intended to develop written, verbal, and digital communication skills to advance students in their fields of study. Taken alone, the Certificate serves as a basis for entry-level positions in administrative or communication industries. Students will participate in a capstone project to create a deliverable product which illustrates their technical and professional communication skills.

WIND ENERGY TECHNOLOGY

The Wind Energy Technology program at Mesalands Community College offers training to meet the growing demand for qualified wind energy technicians to provide maintenance on wind turbines. The Associate of Applied Science Degree in Wind Energy Technology at Mesalands Community College provides instruction in wind turbine technology, turbine placement and construction, turbine operations and maintenance, monitoring and communications technology, tower safety mechanical systems, electrical theory, power generation and distribution, hydraulics, and digital electronics. Students in these programs will be prepared for rewarding and profitable careers in this growing field.
